

Conference “Europe in our eyes” POSITIVE RESULTS OF THE ACCESSION

The single currency, with all the problems that it causes to less developed economies like ours, is seen as a convenient tool for all Europeans

**Sharing of experience
and knowledge
- European citizenship**

**The free movement
of persons and
goods**

Community funds that enabled the development of the country's infrastructure, especially highways. Today, Portugal is equipped with an extensive network of motorways, although users have to pay quite a lot to use most of them

In Setúbal, as in other areas of the country, EU funds have enabled us to solve problems in fundamental infrastructure - Sanitation, Public Facilities, Schools

In the last Community framework the Municipality of Setúbal invested 45 million euros in these infrastructures, financed, on average, 50 per cent by EU funds

The local authorities have undoubtedly made the best use of Community funds and understood their spirit, promoting local development

EUROPEAN FUNDS

In Portugal, every programming period has been given a name

- **QCA I -Community Support Framework 1 (1986-1992)**
- **QCA II- Community Support Framework 2 (1993-1999)**
- **QCA III- Community Support Framework 3 (2000-2006)**
- **QREN- National Strategic Reference Framework (2007-2013)**
- **PT 2020 – Portugal 2020 (2014-2020)**
